福克斯片场对于全球的国际电影制片公司而言如同一张王牌。AJ+C在该项目中的设计部分扮演了重要的角色，其中专业的影片工作室 为巨型电影提供了制作场地，如星球大战和超人续集。除了影院之外，设计中还包括零售和娱乐设施。

项目中包括四个“艺术屋”的影院和2099平方米的零售，办公区。主要的设计理念为‘现代片段的合成’—通过采用动画般景象而不失真比例的手法来呈现街景；通过现代主义的美学去开拓戏剧性的宣传栏，影院入口和遮篷。

Fox Studios is a global drawcard for domestic and international film production. AJ+C played an important role in design components of the development, which comprises professional film studios and offices used for the making blockbuster films as Star Wars and Superman Returns, as well as a retail and entertainment precinct.

AJ+C designed The Paris Cinema building, which forms part of the retail and entertainment precinct. The development includes four 'art house' cinemas and 2099m² of retail and office spaces. It was designed as a 'composition of modern fragments' to create an animated, pedestrian-scaled streetscape, capturing the character of a traditional 19th century 'high street' but using modernist aesthetics to exploit the theatrical possibilities of the billboard, cinema entrance and canopy.
